INTRODUCTORY

FOR the convenience of our many customers, some of whom are mainly interested in greenhouse stock only, and others in nursery stock only, we have decided to issue our "Price List" this year in two parts. One part for nursery stock, and one for greenhouse stock.

All of the stock offered can be seen growing in our Nurseries here.

Our soil is of a heavy nature, which encourages a fibrous, massive root system.

We transplant all of our nursery stock every second or third year at the most, which guarantees a compact ball of roots, and when moved to new quarters the loss is practically nil.

Our "Evergreens" are carefully trimmed twice a year, which keeps them compact and uniform in shape. Our "Deciduous Trees" are carefully trained from their infancy and an upright leader maintained. Our "Shrubs" are also transplanted regularly; given lots of growing space, and every plant is an individual specimen.

Considering the time, experience and labor expended, our nursery stock must not be confounded with that class of material which is grown in a crowded mass for years, never moved, pulled up by the roots with a plough and dried up before shipping.

If our prices seem higher than such stock, the quality warrants it. The minimum loss and healthy consequent growth makes our stock much cheaper in the end. Labor is not wasted and disappointment and delay is avoided.

An inspection of our stock, before buying elsewhere, is earnestly solicited.

If interested in Greenhouse Stock, send for our Greenhouse Stock Price List.

14 to 16 feet, 2½ to 3 inch calipre, \$5.00 each.

16 to 18 feet, 3 to 3½ inch calipre, \$7.50 each.

Specimens, \$10.00 to \$15.00.

Acer Plat-Schwedlerii (Schwedler Norway Maple). In every respect similar to the Norway Maple except in the color of the leaves which are bright purple when young and retain a purplish green color all summer. This is the most decorative of all Maples.

10 to 12 feet, 2 inch calipre, \$2.50 each.

12 to 14 feet, 2½ inch calipre, \$3.50 each.

14 to 16 feet, 2½ to 3 inch calipre, \$5.00 each.

16 to 18 feet, 3 to 3½ inch calipre, \$10.00 each.

Acer Plat-Spathi. Somewhat resembles the Norway Maple, but the leaf is larger, darker green, and not so smooth. The under-side of the leaf is brownish purple; a very handsome tree.

10 to 12 feet, 1 to 1½ inch calipre, \$2.00 each.

12 to 14 feet, 1½ to 2 inch calipre, \$3.50 each.

14 to 16 feet, 2 to 2½ inch calipre, \$5.00 each.

Acer Plat Reitenbachi. Of the Norway type, but more erect in growth, large, glossy foliage, green in spring changing to purple towards midsummer.

10 to 12 feet, 1½ inch calipre, \$2.00 each.

12 to 14 feet, 2 inch calipre, \$3.50 each.

14 to 16 feet, 2 to 2½ inch calipre, \$5.00 each.

Acer Saccharinum (Sugar Maple). The well known native Maple.

10 to 12 feet, 1 to 1½ inch calipre, \$2.50 each.

THE JAPANESE MAPLES

Acer Polymorphum Atropurpureum (Blood Leaved). This is the best of all the Japanese Maples. The foliage is reddish crimson or blood-red in spring and becomes duller as the season advances, but it holds this color all the season. The growth is upright and bushy and makes a beautiful "Lawn Specimen."

1½ feet, \$1.50; 2 feet, \$2.00; 2½ feet, \$2.50; 3 feet, \$3.00; 3½ feet, \$4.00; 4 feet, \$5.00; 5 feet, \$7.50; 6 feet, \$10.00.

Larger specimens, \$15.00 to \$25.00.

Acer Poly-Atro Dissectum (Cut Leaved). The foliage is very fine cut and blood-red when young; changing to purplish green in summer. Very dwarf, with graceful weeping form.

Acer Poly-Versicolor (Various Colored). Of upright growth, and finely branched. The leaves are green, margined with pink and white and are finely cut.

2 feet, \$2.00; 2½ feet, \$2.50; 3 feet, \$3.00.

HORSE-CHESTNUT.

Aesculus Hippocastanum. A well known tree with abundance of white flowers in May. Makes a fine "Lawn Specimen."

8 to 10 feet, \$2.00.

10 to 12 feet, 2 inch calipre, \$2.50.

12 to 14 feet, 2 to 2½ inch calipre, \$3.50.

12 to 14 feet, 2½ to 3 inch calipre, \$5.00.

14 to 16 feet, 3 to 3½ inch calipre, \$7.50.

Aesculus-Hippo-Alba Flore Pleno. Double white-flowering Horse-Chestnut. The flowers are produced on large spikes, and are a beautiful sight when in full bloom. It does not produce fruit, and consequently makes a very clean Lawn Specimen.

Fine specimens, \$3.50, \$5.00 and \$7.50 each.

Aesculus rubicunda Flore Plena. Makes a smaller tree than the former, with double red flower and darker green leaves.

8 to 10 feet, 2 inch calipre, \$3.00.

10 to 12 feet, 2½ to 3 inch calipre, \$5.00.

12 to 14 feet, 3 to 3½ inch calipre, \$7.50.

BIRCH

Betula Alba (White Birch.) One of our well known native trees.

5 to 6 feet, \$1.00; 6 to 8 feet, \$1.50; 8 to 10 feet, \$2.00; 10 to 12 feet, \$2.50.

Betula pendula Youngi (Young's Weeping Birch).

A graceful weeping tree with fine cut foliage.

5 to 6 feet stems, \$2.50 to \$5.00 each.

CATALPA

Catalpa Bungei (Umbrella Tree). A most useful tree for formal planting. The stems are 6 to 8 feet high and surmounted with a round, formal top which grows thus naturally without trimming. The leaves are broad and glossy. A very ornamental tree.

EVER-BLOOMING BUSH, OR BABY RAMBLERS

These Bush, or Baby Rambler roses are of recent introduction, but their popularity and demand is increasing every year. As bedding roses they have no equals. They are absolutely hardy, standing without the slightest protection in our coldest climates. They naturally grow from two to three feet high. They commence to bloom with the other roses in June, and from then on until hard frost there is not a day during the whole summer that they don't have a number of blossoms.

F. O. B. Factory, Tarrytown, N. Y.

A portable steel furnace for the rapid and convenient destruction of all leaves, refuse, and waste matter.

In reality, a two-wheeled hand cart (for which purpose it can also be used), made of strong steel angle iron and heavy steel netting, which is fire-proof and guaranteed not to burn out.

Is fitted with broad-tired wheels, which enables it to be pulled along with the cleaning-up squad on lawns or soft ground without injury. A strong steel pan is fitted under the axle which catches all the fire and ashes as they fall through the bottom. This pan can be easily emptied as needed.

The unsightly burned spots on lawns and black streaks of ashes on paths and drives is done away with and all danger of fire is eliminated.

Against the cost of hauling the leaves and rubbish to a convenient spot for burning, the leaf burner will pay for itself twice over in one season.

A number are already in use in public and private places, and the names of satisfied customers will be gladly supplied if desired.

Read what the Superintendent of New York Public Parks says about this "Burner":

Department of Parks, Office of Superintendent.
Borough of Bronx, New York.

Messrs. Scott Bros.,
Elmsford, N. Y.

Gentlemen:—In reference to the "Dolen Waste and Leaf Burner" which you sent us on trial, I wish to state that I consider it a great saving in labor and that it fills a long needed want. It should be included in the equipment of every Estate and Park over $\frac{1}{2}$ -acre in extent. It is my intention, as fast as I can get the appropriations, to buy "Burners" enough to properly equip each Park under my jurisdiction.

Very truly yours,

FRANK HAMILTON,
Superintendent.

Nov. 23rd, 1915.
